

JIP/KAAS

21 Lis 2016 12:12:43

Model Name

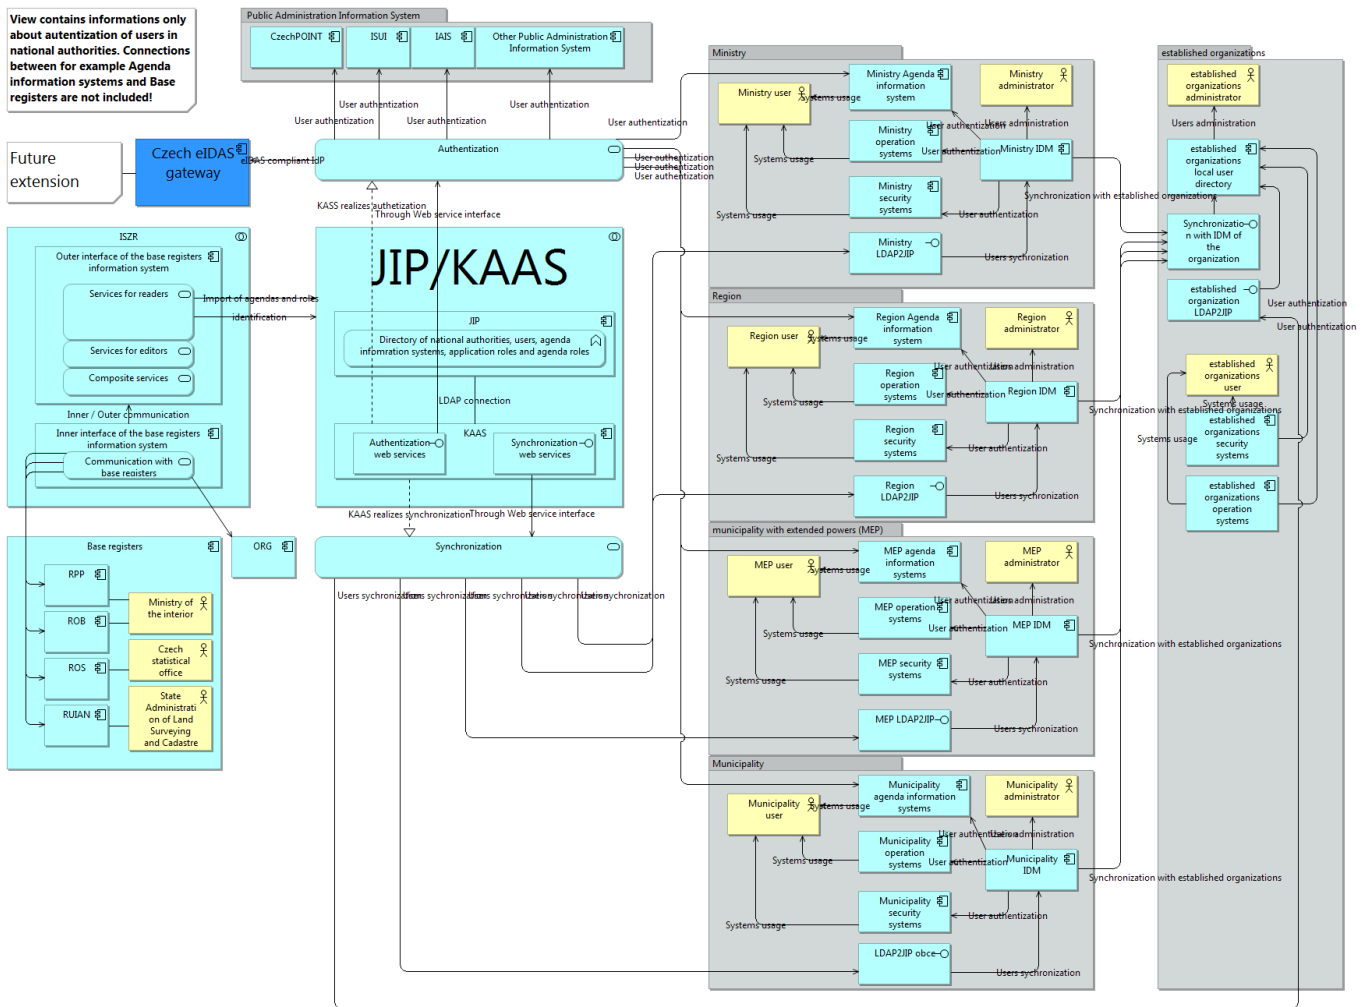

JIP/KAAS

JIP/KAAS

Total viewpoint

View contains informations only about authentication of users in national authorities. Connections between for example Agenda information systems and Base registers are not included!

Future extension

Elements

Element	Type
Authentication	Application Service
Authentication web services	Application Interface
Base registers	Application Component
Communication with base registers	Application Service
Composite services	Application Service
Czech eIDAS gateway	Application Component
Czech statistical office	Business Actor
CzechPOINT	Application Component
Directory of national authorities, users, agenda information systems, application roles and agenda roles	Application Function
established organization LDAP2JIP	Application Interface
established organizations administrator	Business Actor
established organizations local user directory	Application Component
established organizations operation systems	Application Component
established organizations security systems	Application Component
established organizations user	Business Actor
IAIS	Application Component
Inner interface of the base registers information system	Application Component
ISUI	Application Component
ISZR	Application Collaboration
JIP	Application Component
JIP/KAAS	Application Collaboration
KAAS	Application Component
LDAP2JIP obce	Application Interface
MEP administrator	Business Actor
MEP agenda information systems	Application Component
MEP IDM	Application Component
MEP LDAP2JIP	Application Interface
MEP operation systems	Application Component
MEP security systems	Application Component
MEP user	Business Actor
Ministry administrator	Business Actor
Ministry Agenda information system	Application Component
Ministry IDM	Application Component
Ministry LDAP2JIP	Application Interface
Ministry of the interior	Business Actor
Ministry operation systems	Application Component
Ministry security systems	Application Component
Ministry user	Business Actor
Municipality administrator	Business Actor

Municipality agenda information systems	Application Component
Municipality IDM	Application Component
Municipality operation systems	Application Component
Municipality security systems	Application Component
Municipality user	Business Actor
ORG	Application Component
Other Public Administration Information System	Application Component
Outer interface of the base registers information system	Application Component
Region administrator	Business Actor
Region Agenda information system	Application Component
Region IDM	Application Component
Region LDAP2JIP	Application Interface
Region operation systems	Application Component
Region security systems	Application Component
Region user	Business Actor
ROB	Application Component
ROS	Application Component
RPP	Application Component
RUIAN	Application Component
Services for editors	Application Service
Services for readers	Application Service
State Administration of Land Surveying and Cadastre	Business Actor
Synchronization	Application Service
Synchronization web services	Application Interface
Synchronization with IDM of the organization	Application Interface

Business Actors

Czech statistical office

Business Actor

CZ: Český statistický úřad
EN: Czech statistical office

established organizations administrator

Business Actor

CZ: Administrátor
EN: Administrator

established organizations user

Business Actor

CZ: Uživatel
EN: User

MEP administrator

Business Actor

CZ: Administrátor
EN: Administrator

MEP user

Business Actor

CZ: Uživatel
EN: User

Ministry administrator

Business Actor

CZ: Administrátor
EN: Administrator

Ministry of the interior

Business Actor

CZ: Ministerstvo vnitra
EN: Ministry of the interior

Ministry user

Business Actor

CZ: Uživatel
EN: User

Municipality administrator

Business Actor

CZ: Administrátor
EN: Administrator

Municipality user

Business Actor

CZ: Uživatel
EN: User

Region administrator

Business Actor

CZ: Administrátor
EN: Administrator

Region user

Business Actor

CZ: Uživatel
EN: User

State Administration of Land Surveying and Cadastre

Business Actor

CZ: Český úřad zeměměřičský a katastrální
EN: State Administration of Land Surveying and Cadastre

Applications

Authentication

Application Service

CZ: Autentizační služba JIP/KAAS
EN: Autentization service of JIP/KAAS

Authentication web services

Application Interface

Base registers

Application Component

Základní registry
CZ: Základní registry
EN: Base registers

Communication with base registers

Application Service

CZ: Komunikace se základními registry
EN: Communication with base registers

Composite services

Application Service

Rozšíření služeb informačního systému základních registrů v rámci vnějšího rozhraní ISZR

CZ: Kompozitní služby
EN: Composite services

Czech eIDAS gateway

Application Component

CZ: Budoucí komponenta Českého eIDAS gateway
EN: Future Czech eIDAS gateway

CzechPOINT

Application Component

CZ: Informační systém veřejné správy
EN: Public Administration Information System

Directory of national authorities, users, agenda information systems,

Application Function

CZ: Adresář OVM, uživatelů, agendových informačních systémů, činnostních rolí
EN: Directory of national authorities, users, agenda information systems, application roles and agenda roles

established organization LDAP2JIP

Application Interface

CZ: LDAP2JIP
EN: LDAP2JIP

established organizations local user directory

Application Component

CZ: Lokální adresář uživatelů
EN: Local users directory

established organizations operation systems

Application Component

CZ: Provozní systém

EN: operating system

established organizations security systems

Application Component

CZ: Bezpečnostní systém

EN: Security/Cybersecurity system

IAIS

Application Component

CZ: Informační systém veřejné správy

EN: Public Administration Information System

Inner interface of the base registers information system

Application Component

Komponenta tvořící vnitřní rozhraní informačního systému základních registrů. Spravuje komunikaci mezi základními registry a vnějším rozhraním ISZR.

CZ: Vnitřní rozhraní ISZR

EN: Inner interface of the base registers information system

ISUI

Application Component

CZ: Informační systém veřejné správy

EN: Public Administration Information System

ISZR

Application Collaboration

CZ: Kolaborace komponent tvořící informační systém základních registrů - ISZR

EN: Collaboration for communications between base registers and national authorities - ISZR

JIP

Application Component

CZ: Komponenta systému JIP - Jednotný identitní prostor

EN: JIP component - Unified identity space

JIP/KAAS

Application Collaboration

CZ: Kolaborace systému JIP/KAAS - Jednotný identitní prostor / Katalog autentizačních a autorizačních služeb

EN: JIP/KAAS collaboration - Unified identity space / authentication and authorization services catalog

KAAS

Application Component

CZ: Komponenta KAAS - katalog autentizačních a autorizačních služeb
EN: KAAS component - authentication and authorization services catalog

LDAP2JIP obce

Application Interface

CZ: LDAP2JIP
EN: LDAP2JIP

MEP agenda information systems

Application Component

CZ: Agendový informační systém
EN: Agenda information system

MEP IDM

Application Component

CZ: Identity management system
EN: Identity management system

MEP LDAP2JIP

Application Interface

CZ: LDAP2JIP
EN: LDAP2JIP

MEP operation systems

Application Component

CZ: Provozní systém
EN: operating system

MEP security systems

Application Component

CZ: Bezpečnostní systém
EN: Security/Cybersecurity system

Ministry Agenda information system

Application Component

CZ: Agendový informační systém
EN: Agenda information system

Ministry IDM

Application Component

CZ: Identity management system

EN: Identity management system

Ministry LDAP2JIP

Application Interface

CZ: LDAP2JIP

EN: LDAP2JIP

Ministry operation systems

Application Component

CZ: Provozní systém

EN: operating system

Ministry security systems

Application Component

CZ: Bezpečnostní systém

EN: Security/Cybersecurity system

Municipality agenda information systems

Application Component

CZ: Agendový informační systém

EN: Agenda information system

Municipality IDM

Application Component

CZ: Identity management system

EN: Identity management system

Municipality operation systems

Application Component

CZ: Provozní systém

EN: operating system

Municipality security systems

Application Component

CZ: Bezpečnostní systém

EN: Security/Cybersecurity system

ORG

Application Component

CZ: převodník ORG
EN: ORG converter

Other Public Administration Information System

Application Component

CZ: Informační systém veřejné správy
EN: Public Administration Information System

Outer interface of the base registers information system

Application Component

Komponenta tvořící vnější rozhraní informačního systému základních registrů. Poskytuje skrze různé služby (funkce) propojení na jednotlivé agendové informační systémy.

CZ: Vnější rozhraní ISZR
EN: Outer interface of the base registers information system

Region Agenda information system

Application Component

CZ: Agendový informační systém
EN: Agenda information system

Region IDM

Application Component

CZ: Identity management system
EN: Identity management system

Region LDAP2JIP

Application Interface

CZ: LDAP2JIP
EN: LDAP2JIP

Region operation systems

Application Component

CZ: Provozní systém
EN: operating system

Region security systems

Application Component

CZ: Bezpečnostní systém
EN: Security/Cybersecurity system

ROB

Application Component

CZ: Základní registr obyvatel

EN: Base register of inhabitants

ROS

Application Component

CZ: Základní registr osob

EN: Base register of law subject

RPP

Application Component

CZ: Základní registr práv a povinností

EN: Base register of duties and rights

RUIAN

Application Component

CZ: Základní registr územní identifikace, adres a nemovitostí.

EN: Base register of territorial identification, addresses and real estate

Services for editors

Application Service

Služby poskytující specifické funkcionality pro editační, spolupracující agendové informační systémy v rámci vnějšího rozhraní ISZR.

CZ: Služby poskytované editorům

EN: Services for editors

Services for readers

Application Service

Služby poskytující specifické funkcionality pro čtenářské agendové informační systémy v rámci vnějšího rozhraní ISZR.

CZ: Služby poskytované čtenářům

EN: Services for readers

Synchronization

Application Service

CZ: Synchronizační služba JIP/KAAS

EN: Synchronization service of JIP/KAAS

Synchronization web services

Application Interface

Synchronization with IDM of the organization

Application Interface

CZ: Synchronizace s IDM organizace

EN: Synchronization with IDM of the organization
