Restriction on the entry of **FOREIGNERS** to the Czech Republic

As of 30\(^{th}\) January 2021 travelling to the Czech Republic for other than essential reasons is banned. Passengers arriving from the countries, that are not among the countries with a low risk of COVID-19 transmission, have to fill the Public Health Passenger Locator form before their arrival. It is also necessary to undergo testing on COVID-19 according to the rules applied to the category of the country regarding the risk of COVID-19 transmission. All passengers are required to have a confirmation of completion of the Passenger Locator form and test results with them throughout their stay in Czechia.

Due to the Ministry of Health Protective Measure **it is not possible to travel to Czechia for the purpose of tourism or visiting friends.** Restaurants and accommodation facilities are closed at the moment.

It is possible to travel to and out of Czechia without necessity of filling the Public Health Passenger Locator form or submitting a PCR or antigen test result for the period of time not exceeding 12 hours. **However it is possible to travel for only limited reasons while travelling from the countries with a very high risk (dark red);**:

- business meetings or other work performance
- obtaining basic needs
- journeys to medical facilities
- handling of urgent official matters
- funerals

**Foreigners travelling from the countries with medium and high risk can travel for the period of time not exceeding 12 hours for unlimited reasons.**

**foreigners can travel to the Czech Republic only for essential reasons**

- travelling to work or for business purposes (including cross-border workers)
- ensuring the necessary needs of family members
- travelling to healthcare facilities
- all exceptions from the entry ban and other rules for entering the Czech Republic can be found in the Ministry of Health Protective measure.

Ensuring the necessary needs of family members
