Groups of persons, who do not have the obligation to undergo testing and self-isolation after the arrival from the countries with a medium or high risk:

- persons who had Covid-19 in last 180 days (it is necessary to have a written medical certificate in English from EU+ country where the isolation was completed)
- persons vaccinated in the EU+ countries - 22 days after application of a first dose or after 14 days in case of one-dose vaccination (it is necessary to have a national certificate)
- Czech citizens and EU+ citizens with certificate of temporary residence or permanent residence permit in Czechia fully vaccinated in a third country with the EMA approved vaccination (it is necessary to have a certificate)

Citizens and residents of Czechia can enter the country even in case of positive test before arrival. Rules for transport with a positive test are described in the MoH Protective Measure.

Rules for testing:

1. Testing before arrival to the Czech Republic:
   1) PCR not longer than 72 hours before starting the travel
   2) antigen not longer than 48 hours

2. Testing after arrival to the Czech Republic:
   1) within 5 days after the arrival from a country with medium or high risk
   2) 5th day after the arrival from a country with very high risk at the earliest

Self-isolation: until receiving a negative result of the test undergone in Czechia

Travellers from the countries that are not part of countries with a low risk have an obligation to fill in the Passenger Locator Form before the arrival.

There are several exceptions from the obligation to fill in the Passenger Locator Form or undergo testing. All the rules and exceptions can be found in the Ministry of Health Protective Measure.

A list of countries with a low, medium and high risk of Covid-19 transmission and list of countries with an extreme risk of Covid-19 transmission can be found here. A country listed in neither list of countries is considered as a country with a very high risk of Covid-19 transmission.
