Dear XXXXX,

I am writing to you concerning your request from November 30, 2016.

As I have already informed XXXXX, I am not authorized to provide any information on specific cases, nor XXXXX. The Ministry of the Interior carries out assessments of trades in military materials in terms of internal order and security. Currently, all trades of XXXXX are suspended for the reason of public order and security protection.

I have been assured by the officials from the French Ministry of the Interior that France fully respects the decisions of the Czech licensing authority.

For the reasons stated above, I believe our meeting is unnecessary.

Best regards

Milena Bačková
